DETAILED ACTION

Reasons For Allowance

1) The following is an examiner's statement of reasons for allowance: Upon review of applicant's remarks and the filing of the affidavit on 6/19/08 it is the examiner's position that claims 1-19 are in condition for allowance. The remarks filed indicate along with the amended claims the lack of an explicit or implicit teaching by the prior art to show a "Two Dimensional photonic crystal" with the following x and y directional parameters but significantly lacking the full bandgap width of 22.5% or greater property with respect to the crystal. Furthermore the affidavit filed showcases an unexpected result pertaining to the crystalline product claimed by applicant and therefore is given consideration for patentability. It is therefore the examiner's position that the application has met the conditions for allowance. For further information please see Attorney remarks for further consideration.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
